Notice to Contributors

Australian Religion Studies REVIEW is a fully refereed academic journal. Manuscripts are evaluated by the Editors and other specialist referees. Prepare copy as follows:

1. Submit three copies. Type all copy double spaced on white A4 paper, clipped not stapled.
2. Send disk copy in IBM compatible mode on 3¼ inch disk in Word Perfect or Word. If neither is available send in ASCII format. Indicate word-processor used and name of file on disk.
3. In order to permit anonymity attach a cover page giving authorship and institutional affiliation but provide only the title on the manuscript.
4. Include an abstract of 100-150 words.
5. Incorporate figures within document where possible. Have laser printed to enable scanning where graphics on disk cannot be accessed.
6. Format of references in text: All references to monographs, articles, and statistical sources are to be identified at an appropriate point in the text by name of author, year of publication,

and pagination where appropriate, all within parenthesis. Endnotes are to be used only for substantive observations, and not for the purpose of citation. Indicate position of endnote in text with superscript number. Do not embed endnotes in text but type separately at end. Footnotes are not to be used. Do not use *ibid. op.cit.*, or *loc.cit.* but specify subsequent citations of the same source in the same way as the first citation. Avoid abbreviations except 'ed' for editor.

a. If an author's name is in the text, follow it with year in parenthesis "...Weber (1930) has demonstrated...". If an author's name is not in the text, insert at an appropriate point the last name and year "...some have claimed (Durkheim, 1915) that ..."

b. Pagination (without "p." or "pp.") follows the year of publication, separated by a colon "...it has been noted (Wach, 1944:7-11) that..."

c. For dual authorship use both last names; for more than two use "et al". For institutional authorship, supply minimum identification from the beginning of the complete citation "...occupational data (Australian Bureau of Statistics, 1991: 43) reveal..."

d. If there is more than one reference to the same author and year, distinguish them by the use of letters (a, b, c...) attached to year of publication, in text and in reference appendix "...as was previously suggested (Greeley, 1963a:32)..."

e. Enclose a series of references within a single pair of parentheses and separate by semicolons "...as many have noted (Yinger 1957; Lenski, 1961; O'Dea, 1966)..."

7. Format of "References" section at end of manuscript: List all items alphabetically by author, and within author, by year of publication. For typing format, see the following examples:

8. Punctuation. For all foreign words use italics '*sui generis*'; for emphasis use bold '**extremely**'; for direct quotations within the text (as opposed to indented quotes) use "..."; to otherwise isolate a word or phrase use '...' "...the concept 'multiculturalism'..." In all cases use sparingly.
